

East West Challenge

From the Head

From the Foot

Dean & Roy at foot

It is Day 2 - Roy and I headed over to the other venue for the East West Challenge. These courts are referred to as "Muni". They are courts that are owned by the City and the local club pays for some utilities. This is very much like the arrangement the Clearwater Shuffleboard Club now has with the City of Clearwater.

The building houses 8 courts, is spotless inside and very well maintained. Like the other building it is heated and air conditioned.

The courts are as shiny as they look in the pictures. Roy and I were mentally prepared for faster courts than yesterday but they were about the same. We were told that they had not been prepared for tournament play and were assured they would be much faster once the polished the discs and used tournament beads.

We both played with more confidence today and were able to get most disks on the board. Tampa and St Petes are still a big challenge though.

We have already met some very nice people; Liz Backus, Dean Grattidege, Marty Boyarde, Nancy from AZ, and Gary Moore. That are the only names my old mind will remember now.

We are awaiting the arrival of the party animals Earl Ball and Gus Bondi. They are both scheduled to arrive later today. Weather is 82 bright sunshine and will be 58 tonight, another nice sleeping night.

Waiting & waiting for the disk to stop

Roy smiling

Why is Roy smiling? Because it is very difficult to keep the disk staying in the shooting area. The courts are so slippery it is a challenge just to get all 4 to stay in the area.
